ANNUAL S E E D CATALOG

WILLIAM D. BURT
Seedsman
Dalton, New York

Greeting

To My Kind Friends and Patrons

I embrace this opportunity in thanking all old customers for their liberal patronage and hope through honest dealings to gain a continuance of the same.

You, no doubt each year receive a number of large, showy, elaborate seed catalogs with lithograph covers and numerous colored plates. Your first impulse, no doubt will be to cast this little catalog aside and order from that showy catalog, but wait, I ask you to consider. Who pays for that showy catalog? Certainly you do, if you order seeds from it. Because other seedsmen issue large showy catalog is no proof that their seeds are superior to those you might order from this little catalog, giving short, true descriptions, omitting all trashy cuts and overdrawn descriptions.

I want everyone to understand I do not handle cheap seeds. My prices are very low, but my seeds are the best to be obtained. To strangers who may receive this catalog, I ask a careful examination and comparison with others with the assurance that a trial order shall receive my most careful attention.

I am no doubt the youngest man, in age, in the seed trade and I ask you to give me a share of your valuable trade. It shall be my aim to supply you with only the best at all times. I want every one who receives this catalog to give me at least a trial order (if it amounts to only 10c.) I want you to try my seed. Write me at all times upon any subject, as you would a friend. I am always pleased to hear from my many customers.

Thanking you for your future business and wishing you a prosperous New Year,
I am

Sincerely Yours at Command,

William D. Burt

Suggestions to Buyers

How to Order—Always write your name very plain and keep a copy of your order. Use order blanks when you have them.

Remitting Money—Cash should always accompany the order. Send all money by P. O. Money Order or Registered Letter. Never send money loose in your letter.

Stamps—Please do not send stamps for amounts over 25c. If you are obliged to send stamps, send 1c. stamps.

Shipping—If goods are to go by freight or express, be sure to send plain shipping directions.

Postage—I pay postage on all seeds ordered by package, ounce, pound or quart or on bulbs, etc. No order will be accepted less than 10 cents. Seeds ordered by bushel or 100 pound lots are sent by freight or express, purchaser to pay charges.

Guarantee—I guarantee my seeds the best, so far as that I hold myself ready to refill the order anew gratis to the same amount, should they prove defective in any way.

Address—Send all orders to and make all orders payable to

Wm. D. Burt, Seedsman, Dalton, N. Y.

Choice List of Standard Vegetable Seeds.

Asparagus.

(1 oz. Seed for 600 plants.)

Palmetto—Of Southern origin, but equally adapted for North or South. Pound, 75c; $\frac{1}{2}$ lb., 40c; oz., 10c; $\frac{1}{2}$ oz., 5c; pkt., 1c.

Conover's Colossal—Large and of rapid growth. Pound 35c; $\frac{1}{4}$ lb., 15c, oz. 5c, pkt. 1c.

Columbian Mammoth White—A new variety producing white stalks of large size and finest quality. Pound 75c, $\frac{1}{4}$ lb. 25c, oz. 10c, $\frac{1}{2}$ oz. 5c, pkt. 1c.

Beets.

Plant in drills 2 in. deep and the rows about 12 or 15 in. apart. Thin to 4 in. One ounce to 165 feet drill.

Crosby's Egyptian—This variety resembles the Egyptian only in its extreme earliness; it is larger, lighter in color, and much thicker and more round than the original.

Early Eclipse—This variety is exceedingly popular and is one of the best early sorts. Roots are of a globular shape; flesh fine grained, very sweet, crisp and tender.

Edmand's Early Blood Turnip—Regular in shape, round, with very small tap root; flesh a deep blood red, sweet and tender.

Improved Early Blood Turnip—Turnip shaped, smooth, tender and good; about ten days after Bassano.

Bastian's Early Blood Turnip—Tops small; roots turnip shaped, flesh tender, retaining its blood-red color when cooked.

Long Smooth Blood Red—Tops large with good sized long roots, tapering and growing even with the surface; color, dark red.

Swiss Chard—Silver or Sea Kale beet. Grown for its leaves only. The middle of the leaf is cooked and served as asparagus. The other portions of the leaf are used as spinach.

Price of beet seed: Pound 40c, $\frac{1}{4}$ lb. 18c, oz. 5c, pkt. 2c.

Mangel Wurzel Beets.

For Stock or Cattle Feeding.

Mammoth Long Red—This is truly, as its name implies, a mammoth, a single root often weighing 20 to 30 pounds; enormously productive, yielding 30 to 40 tons of roots per acre. They grow well above ground and are easily harvested. Pound 35c, $\frac{1}{4}$ lb. 15c, oz. 5c, pkt. 1c.

Golden Tankard—This is a distinct variety and particularly valuable on account of its richness in saccharine matter. Deep yellow flesh and skin. Pound 35c, $\frac{1}{4}$ lb. 15c, oz. 5c, pkt. 1c.

Champion Yellow, or Orange Globe—The best round Mangel. Keeps better than Long Red for winter use. It is also more desirable for growing in shallow soils. Pound 35c, $\frac{1}{4}$ lb. 15c, oz. 5c, pkt. 1c.

Vilormin's Improved White Sugar—An improvement on the old white sugar. Very rich. Pound 45c, oz. 5c, pkt. 1c.

Borecole, or Kale.

German, Blatter; French, Chou Vert Frise; Spanish, Col.

(One ounce will produce 3,000 plants.)

To grow this valuable winter vegetable successfully, plant out in June, following the directions recommended for cultivating cabbage.

Dwarf Green Curled Scotch—One of the best; very hardy and improved by a moderate frost. Per pkt. 1c.

Beans.

One quart will plant 200 hills.

Dwarf Wax Pod or Butter Beans.

Wardwell's Kidney Wax= This variety has flat pods, of a delicate waxy color, stringless and brittle. The beans are of large, kidney shape, white with dark markings about the eye. Qt. 40 cts. pt 20c, pkt. 5 cts.

Currie's Rust Proof Black Wax.

Pods long, flat and straight, of a golden color; quality not surpassed and for productiveness unequalled. Qt. 40 cts. pt. 15 cts., pkt 5c.

Black Wax= Round wax pods; early, stringless, excellent. Qt 40 cts, pt 15c. pkt 5 cts,

Earliest Valentine Wax= This is an early bean with round Wax pods, which are meaty and with so little string that they may be called stringless. Quart 40 cts. pt 20 cts pkt. 5 cts.

Davis Kidney Wax= The pods are long straight of clear waxy white color, and often growing to seven or eight inches in length. Qt 40 cts, pt 20 cts, pkt 5 cts

POLE BEANS

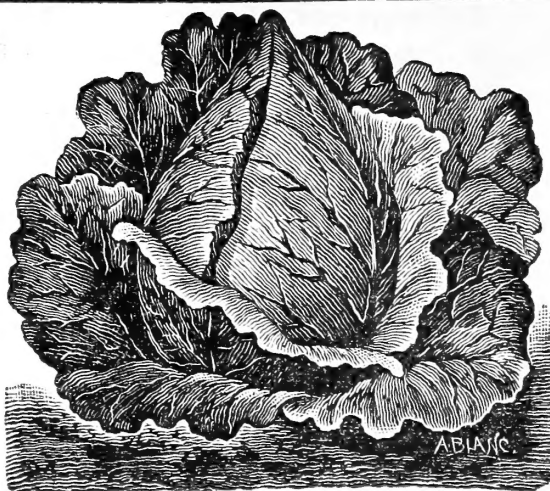

Lazy Wife= The pods grow long, entirely stringless and of a rich, buttery flavor, beans white. Vines cling to poles readily. Qt 50c pt 20c pkt 5 cts.

LIMA BEANS

Burpee's Bush Lima= An immense yielder, with large pods well filled with large beans, which are uniform in size and of fine flavor. Qt 40c pt 20 cts pkf 5 cts.

Henderson' Bush Lima= Enormously productive and bears until frost, beans small pure white, fine quality. Qt 50c. pt 25 cts. pkt. 5 cos.

King of the Garden Lima= A vigorous grower requiring but two vines to each pole, pods measure from five to eight inches long and contain from five to seven beans of fine quality. Qt 50c, pt 25 cts., pkt 5 cts.

Cabbage.

One ounce of Seed produces 3,000 plants.

Early Jersey Wakefield= The standard early variety; conical in shape, medium sized heads, very solid, few outside leaves. Pkt. 2c, oz. 25c, lb. \$3.

Early York= A fine early sort, heads are solid and of good size. It endures the heat well, and seldom fails to head. Pkt. 2c, oz. 15c, lb. \$1.10.

Winningstadt= Somewhat resembling the Sugar Loaf, but larger and more solid, one of the best for general use. Pkt. 1c, oz. 15c, lb. \$1.75.

Early Express= A few days ahead of the Wakefield. It has few outside leaves a solid head. Pkt. 1c, oz. 15c, lb. \$1.25

Danish Ball Head= This splendid shipping Cabbage is also sold under the name of Solid Emperor. My strain of this cabbage is unequalled—the best to be had, imported direct from Denmark. It is one of the few imported kinds that will produce solid heads that will keep through the winter. My Danish Ball Head Seed can be depended upon as the best. Pkt. 2c, oz. 25c, lb. \$2 50

Flat Dutch= A popular and highly esteemed late variety; its keeping qualities are unsurpassed. For market use this variety is more used than any other variety. Pkt. 2c, oz. 15c, lb. \$2.

Lupton= One of the best for main crop it has the best qualities. Pkt. 2c, oz 20c.

Drumhead= One of the best heading and keeping varieties. Pkt, 2c, oz. 15 cts.

Cabbage continued

Sure Head- This sort produces large, round, flattened heads, which are of uniform size, very hard and of fine texture. Pkt. 2c, oz. 15c, lb. \$2.00

Red Rock- The head is large, round, & very solid and of a dark red color.
Pkt, 1 ct. oz 20 cts.

Cauliflower.

1 oz. of Seed will produce 4,000 plants.

Early Paris or Nonpareil- This is a well known variety, producing early good sized, pure white heads, which are tender and delicious. Pkt 3c; oz. 50 cts.

Vitche's Autumn Giant- A distinct and valuable late variety, producing large heads, pure white, firm and compact, a desirable variety for general culture Pkt. 3 cts. oz. 40 cts.

Late Algiers- This variety is one of the best late sorts grown. It is a sure header and endures freezing that would injure other sorts. Pkt. 3 cts, oz 40 cts.

Snow Ball- One of the very best varieties grown for early culture. Dwarf compact growth, with large heads of snowy whiteness and delicious flavor. This is a sure header, very early, but valuable for a late crop. Pkt. 10 cts. oz. \$3.00.

BRUSSELS SPROUTS.

Also known as the thousand headed cabbage from its forming numbers of miniature cabbage heads, each about the size of a walnut on strong erect stems three ft. high. Pkt. 1 ct.

COLLARDS

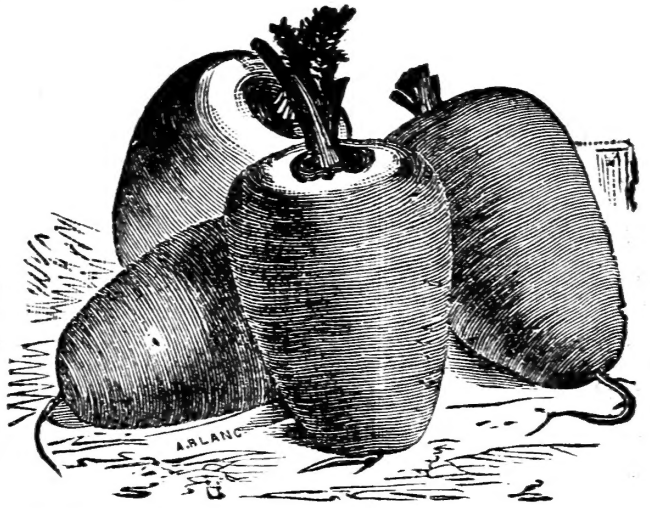

This is a variety of Cabbage largely used in the South. It forms a large, loose, open head or mass of leaves. Pkt. 1 ct.

Get my prices on your field seed before you buy. I can save you money on Clover and Timothy Seed.

CARROT.

One ounce will sow 100 ft. of drill Three to four lbs. per acre.

Price of all carrots Pkt. 1c, oz. 8 cts. lb. 60 cts.

Oxheart or Guerande- While not retaining the length of many of the other varieties, it will compare favorably in bulk of crop, as on good land it will produce Carrots four to six in diameter. A fine table carrot.

Early Scarlet Short Horn - This is a favorite variety for early planting, but not large, the tops are small, roots top shape, stump rooted, color deep orange flesh fine grained.

Danvers Half Long Orange- A first variety; The roots are smooth, medium length, tapering to a blunt point, flesh sweet, crisp and tender.

Long Orange- The old standard and popular variety, the roots are large size orange color. They will produce large crops, fine feeding.

Mastodon--- This is the heaviest cropping Carrots grown, yielding more tons to the acre than any other sort. The flesh is white, solid, crisp and very tender. The best for stock.

White Belgian--- A very productive field variety. Grows about one third out of the ground, and is easily gathered; and grown largely for stock.

You can not beat my Seed or prices. Please give me a trial order.

Celery.

(1 oz. seed will produce 5,000 plants.)

Golden Self-Blanching—A self-blanching variety of the "White Plume" order, but far superior for either market gardeners' or private use. It is of a rich golden-yellow color, crisp, tender and of fine flavor. Per pkt. 2c; oz. 25c.

New Pink Plume—A strong, healthy, compact grower with no tendency to rust; very solid, crisp, extra early, and a long keeper, remaining, when trenched, in perfect condition away into the spring. Pkt., 2c; oz., 15c.

Giant Pascal—This splendid variety is a sport from the well known "Golden self-blanching," carefully selected. It partakes of the fine nutty flavor of that variety without being stringy. The stalks are thick, solid and crisp, golden-yellow heart. Pkt., 2c; oz., 10c.

White Plume—A valuable early and exceedingly ornamental variety, requires very little labor in blanching, one of the best for early use. Pkt., 2c; oz., 15c.

Perfection Hartwell—It is of medium height, the stalks being long and thick, while its compact structure makes it easily worked. Blanches well up in the leaves and its crisp tenderness, distinct and delicious flavor are unequaled. Pkt., 2c; oz., 15c.

Corn Salad.

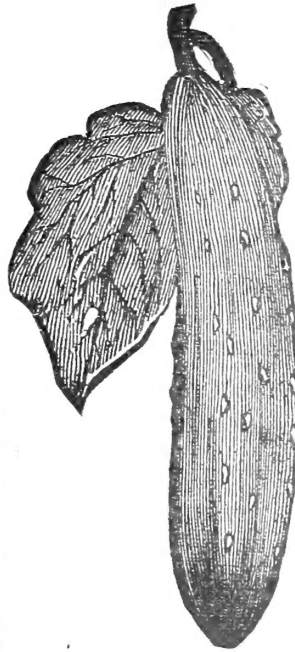

A favorite salad plant in Europe. Sown in August, and protected with a few leaves during the winter. It can be gathered very early in spring. Sown in April, it is soon fit for use. The leaves are sometimes boiled and served as spinach. Pkt. 1c.

Chickory.

The leaves are used as salads, either in their natural state or blanched with oil and vinegar. The leaves are used to mix with or a substitute for coffee.

Large Rooted Magdeburg. Pkt., 1c.

Cucumbers.

All Cucumbers are 2c per pkt., 5c per oz.

1 oz. of Seed will plant 50 hills.

Improved Long Green—A well known standard variety, about 12 inches in length, of most excellent quality, and when young makes the best of pickles. Vines vigorous and very productive.

Improved Early White Spine—Standard variety, very popular in all sections of the country. One of the best sorts for the table, fresh, tender and crisp, fruit uniform in size, straight and dark green with few spines.

Cool and Crisp—White, very early and exceedingly prolific. Tender and crisp and of fine flavor.

Chicago or Wethersfield Pickling—Fruit medium length, pointed at each end, with large and prominent spines; color a deep green.

Green Prolific, or Boston Pickling—A distinct variety; popular for pickling and good for table use; quite productive. Fruit small, uniform in size.

Early Frame or Short Green—Fruit straight, handsome, smaller at each end, bright green, tender and crisp and makes fine pickles.

Early Green Cluster—A short pale green variety; rather prickly; containing few seeds, a very productive sort.

Early Russian—Thick and oval in shape and produced in pairs. Solid, with few seed.

Japanese Climbing—When well established they begin to climb, and may be grown on fences, poles and trellises. The fruits are ten to twelve inches in length, of a fine green color.

Endive.

1 ounce will plant 200 ft. of drill.

A highly esteemed winter salad. For first crop sow about the middle of May and for succession in June. Thin to two in. apart.

Moss Curled-- More finely curled, heavier and more dense plant than green curled. Pkt. 1 ct., oz. 15 cts.

Green Curled-- The hardest variety grown; beautifully curled, tender and crisp. Pkt. 1 ct., oz. 15 cts.

Kohl-Rabi

This vegetable, the popularity of which is rapidly increasing, combines the virtue of the cabbage and turnip.

Early White Vienna-- The earliest and best table or market variety. Pkt 1 ct.

Early Purple Vienna-- Similar to the above, except in color, which is of purple color. Pkt. 1 ct., oz. 20 cts.

Leek.

One ounce will sow 200 feet of drill.

Sow as early in spring as practicable, in drills one in. deep and one foot apart, thin to about 3 in. apart.

American Flag-- The most desirable for market or family use. Pkt. 1 ct.

Musselburge-- A very large variety of superior quality. Pkt. 1 ct. oz. 15 cts.

Rhubarb.

Western Market-- Finest variety, is very productive, large size, very early. The finest variety in existence. Pkt. 1c.

Salisfy.

Mammoth Sandwich Island-- Of extra large size, in every way preferable to the other varieties, being larger, and a strong grower. Invaluable to market gardeners. Pkt. 2 cts., oz. 10 cts.

 Please compare my prices with those of other reliable Seedsmen and see what money I can save you.

Corn.

1 qt will plant 200 hills.

Early Sorts

Earliest of All-- This is in fact the first of all; very excellent, tender & sweet. Similar in appearance to the Cory, but is superior in quality. Pkt., 5c; pt., 20 cts. qt., 35 cts.

Extra Early Cory-- This variety is of great value for its extreme earliness. It is ten days earlier than any other sort. Large ears, fine quality. Pkt., 5 cts. pt. 20. qt., 35. cts.

Early Minnesota-- One of the earliest varieties grown; dwarf, ears small, but of fine quality. Pkt, 5 cts., pt., 20 cts., qt. 35 cts.

Crosby's Early-- One of the standard early sorts, ears of medium size, fine quality. Pkt., 5 cts. pt. 20 cts., qt. 35c.

Late Sorts

Country Gentleman-- The sweetest and most tender of all sweet corn. The ears are short, the cobs are small, and the kernels pearly white. Pkt. 5 cts. pt., 20 cts. qt., 35 cts.

Improved Hickox-- Of medium earliness valuable for family or market garden. Pkt. 5c., pt. 20c., qt. 35 cts.

Stowell's Evergreen-- The most popular variety grown; late, ears large, very sweet, and retain their juicy tenderness longer than any other sort. Pkt. 5 cts., pt. 15 cts., qt. 30 cts.

White Rice Pop Corn-- One of the best Pop corn grown. A sure popper. Pkt 5c.

Egg Plant.

1 ounce will produce 1000 plants.

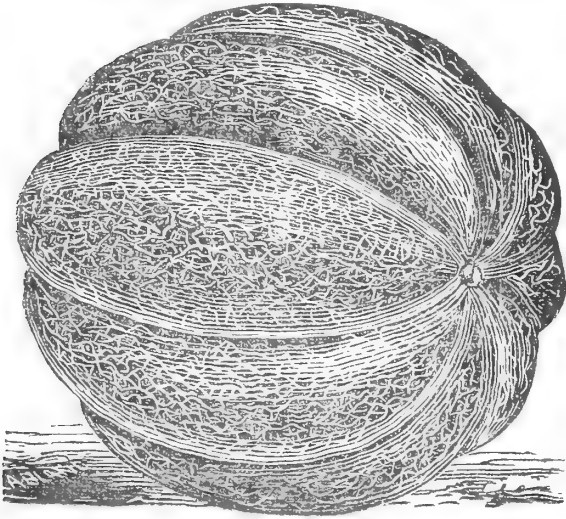

Early Long Purple-- A very early hardy and productive variety of good quality. Pkt. 2 cts., oz. 30 cts.

Black Pekin-- A highly esteemed variety producing very handsome jet-black fruit. Pkt. 1 cts., oz. 30 cts.

New York Improved Purple-- A fine variety for all purposes, large size and fine flavor. Pkt. 2 cts., oz. 30 cts.

Muskmelon

(1 oz will plant 75 hills.)

Rockyford-- This has become one of the most popular of small or basket melon. The fruit is oval, slightly ribbed, densely covered with coarse netting. Flesh thick, green, very sweet and highly flavored. Pkt. 1 ct, oz. 10 cts.

Paul Rose-- This new salmon-fleshed melon surpasses anything yet introduced. The color is of a beautiful netted gray underlaid by dark-green rind, the flavor is delicious, a splendid shipper and keeper. Pkt. 1 ct oz 10 cts.

Graud Rapids-- An extra early, yellow-fleshed sort. It is a most profitable sort to the market gardeners on account of size and its extreme earliness. It is ready for market before any other sort Extra fine. Pkt. 1 ct. oz. 10 cts.

Miller's Cream-- Most delicious. The flesh is a rich salmon in color, very thick, sweet and rich, rind very thin and finely netted. Pkt. 1c oz. 10c.

Emerald Gem-- Fruit of medium size, skin smooth, of a deep emerald green color. The flesh is of a diffused salmon and ripens thoroughly to the extremely thin green edge. Pkt. 1 ct. oz. 10 cts.

Golden Netted Gem-- Thick-meated flesh light green in color and uniform in shape, luscious flavor. The melon weighs from two to five lbs. Very prolific, extra early, fine for market. Pkt. 1 ct., oz. 10 cts.

Lettuce

(1 ounce will sow 200 ft of drill)

Denver Market-- An early variety of Head Lettuce, either for forcing or open ground. Of very light green color slow to run to seed, leaves marked and blistered, crisp and tender and of excellent flavor. Pkt. 2 cts. oz. 10 cts.

Grand Rapids-- Large beautiful leaves, very crisp and tender. One of the best for general culture. Pkt. 2c, oz. 10 cts

Black Seeded Simpson-- The most popular of all the non-heading varieties, the leaves are large and loose, outer leaves a light yellowish green inner leaves almost white. Pkt 2c. oz 10 cts.

New York Market-- Standard variety, large solid heads often three to four pounds in weight, color dark green crisp and tender. Pkt. 2c. oz. 10 cts.

Tennis Ball or Boston Market-- One of the earliest and best heading sorts. Pkt. 2 cts; oz. 10 cts.

Improved Hanson-- This is a standard summer Lettuce. The heads grow large very solid, outer leaves are a bright green, inner ones are blanched white, tender and crisp. Pkt. 2c. oz. 10 cts.

Prize Head-- Forms a large loose head, stained with red, outer leaves curled, crisp and tender, Pkt 2c; oz, 10 cts.

Silver Ball-- Has light green leaves, which are thick and of good size. Most excellent quality. Pkt 2c. oz 10c.

Golden Curled-- A golden-headed sort producing a half head of rare excellence, leaves fluted on the edges, very showy and a fine sort. Pkt. 2c oz 10c.

The Deacon-- When properly grown this is the handsomest, finest, largest, tenderest and most delicious Lettuce grown Pkt. 2 cts. oz. 10 cts.

Mustard

Culture the same as for Cress.

Giant-- Fine for salads, leaves large, flavor sweet and pungent. Pkt. 1 ct.

Onions

(1 oz. will plant 100 ft. of drill.)

Australian Brown-- This new onion is of neat, round shape, medium size, with skin of a deep amber brown, distinct from other onions, extremely hard and firm, of fine flavor and a good keeper. Pkt. 2 cts.

White Globe-- A large globe shaped onion, firm fine grained, of mild flavor keeps well, it is one of the handsomest onions grown, of beautiful shape, clear white skin and good shipper. Pkt. 2cts oz. 20 cts. lb. \$2.25.

Prize Taker-- This is a large beautiful onion that is seen offered for sale at fruit stores in large cities. They are of a rich straw color and of enormous size, averaging 12 to 14 in. in circumference. Pkt, 2 cts., oz. 15 cts. lb. \$2.25

Large Red Globe= Similar to the Large Red in color and flavor, but quite distinct in form, being nearly globular in shape, it is a heavy cropper, and is much prized by many as a market variety. Pkt. 2 cts., oz. 15 cts., lb. \$2 25

Large Red Wethersfield- The standard sort, best for main crop, large size, of a purplish color, round or oval shaped, fine grained, pleasant flavored and very productive. Pkt. 2c., oz. 10c., lb. \$1.25

Large Yellow Globe- A standard variety of large size, globular in form, skin yellowish brown, flesh white, mild and well flavored, very productive one of the most popular kinds in cultivation Pkt. 2 cts., oz. 10 cts., lb. \$1.30

Silver Skin- A mild flavored variety grown extensively for pickling. Pkt. 2c oz. 20 cts. lb, \$2.25

Orka.

White Velvet- Pods round, smooth, much larger than other sorts, productive fine variety. Pkt. 1 ct.

 I want your trade and offer you the best Seeds for the least money of ANY Seedsman. 

Watermelon.

(1 oz will plant 50 hills.)

 **Price of all Watermelons.**

Pkt. 1 ct oz 5 cts lb 60 cts.

Cole's E-aly-- Very hardy, a sure cropper, and extremely delicate in texture of flesh, which is of a dark red color, the rind is thin. Medium size, nearly round in shape, rind green, striped with lighter shades.

Jone's Jumbo-- The shape is round, color green, with faint lightish stripes deep red meat, surpassing all other varieties in flavor and size.

Fordhook Early-- One of the largest of the extra early varieties, and claimed to be the earliest of all. Shape nearly round, color a medium shade of green flesh bright red, and of a deliciously sweet flavor. The rind is sufficiently hard to make it a good shipper.

Dixie-- A melon of excellent quality, extremely sweet, juicy and tender, Very early, hardy and productive.

Phinney' Early-- Melons of medium size and oblong shape, marked with two shades of green. The rind is thin, the flesh is red and tender, a heavy and sure cropper. Very early.

Kolb's Gem-- The shape is oblong to nearly round, color and markings as indicated. The melons weigh from 30 to 50 lbs each. The rind is thin, tough flesh a bright red, and fine quality, a fine shipping melon.

Peerlees-- A watermelon which I recommend for garden culture. Size medium, color mottled green. Flesh rich, scarlet and sweet. Vine very productive and a good shipper.

Citron for paserving= Handsome round fruit of small size, highly esteemed as a table preserve.

 When sending your order enclose the names of your friends so that I can send them my Catalogue I will send you extras for your trouble. 

Peas.

1 quart will plant 125 feet of drill.

Extra Early Varieties

Gradus-- As an extra early Pea, the Gradus, being a sugar Pea is far superior to all smooth varieties. The pods contain from eight to twelve peas, of delicious flavor, large size, excellent cropping qualities.

Pkt. 5 cts. pt. 25 cts. qt. 50 cts.

Alaska-- The earliest blue pea, of good flavor, and bearing pods of a dark green color, vines two and half feet high.

Pkt. 5 cts., pt. 20 cts., qt. 45 cts.

Bliss' American Wonder-- One of the best of the early peas, bearing large well filled pods, from six to nine peas in a pod, vines twelve in high, robust

Pkt. 5 cts., pt. 15 cts., qt. 45 cts.

Nott's Excelsior-- New¹ extra early dwarf, green, wrinkled sort, vines are large and vigorous and a heavy yielder vines 15 inches high. Pkt. 5 cts. pt. 15 cts. qt. 40 cts.

McLean's Little Gem-- A very desirable early dwarf green wrinkled variety vines fifteen inches high. Pkt. 5 cts. pt. 20 cts., qt. 40 cts.

Second Early Variety

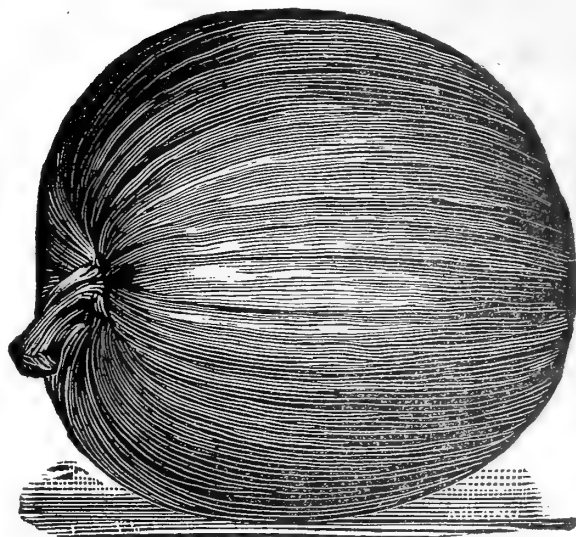

Herione-- A medium early, green wrinkled pea of recent introduction; large pods, fine quality, heavy cropper, two and one half ft. Pkt. 5c., pt. 20c., qt. 40c.

Horsfords Market Garden-- A wrinkled variety of superior quality, growing 2 feet high, very stocky, requires no staking. Pkt. 5 cts., pt. 20 cts., qt. 40 cts.

Late Varieties

Telephone-- A fine, tall, wrinkled variety, and a great cropper, bearing large pods full of large peas, of fine flavor. Vines four feet. Pkt. 5 cts., pt. 20 cts. Qt. 40 cts.

Champion of England-- A standard variety popular everywhere, one of the richest and best flavored green wrinkled peas, five feet high, Pkt. 5 cts., pt. 20 cts. Qt. 40 cts.

Pumpkin.

Mammoth Potiron, or King of the Mammoths--It grows to an enormous size, three feet or more in diameter and one to two hundred pounds or more in weight. It has a salmon colored skin; flesh bright yellow, fine grained and of good quality. Pkt. 1 c., oz., 10c.

Connecticut or Large Common Yellow Field--A very productive, large, yellow variety and grown principally for feeding stock. Pkt. 1c oz. 5c.

Quaker Pie--This variety is of a creamy color both inside and out, fine grained and rich flavored. Pkt. 1c. oz. 10c.

Winter Luxury--This without doubt, is the finest pie pumpkin yet introduced; It is a good keeper, wonderfully productive, while its finely netted and golden-russet color make it desirable for market use. Pkt 1c. oz 10c.

Parsnip.

1 ounce will sow 200 feet of drill.

Improved Gurnsey-- Half long, roots not so long as the Hollow Crown, but larger in diameter, and more easily gathered, smooth, fine grained, excellent quality. Pkt. 1 ct., oz. 5 cts,

Hollow Crown-- Long, smooth, tender and sugary, very hardy, will keep all winter with very little protection. Pkt. 1 ct., oz. 5 cts,

Pepper.

1 oz of seed for 1500 plants.

 **Pepper Seed Pkt. 2 cts. Oz. 20 cts.**

Large Bell or Bull Nose-- Very large, nearly four in. long and three inches in diameter, glossy red, excellent for use in salads and pickles.

Ruby King-- Fruits from four to six in. long, and four in. broad, when ripe they are bright ruby red, mild and pleasant.

Golden Dawn-- Resembles the Large Bell in shape, but is more delicate in flavor, color a rich golden yellow, with a very thick, mild, sweet flavor.

Celestial-- A Chinese variety, useful as well as ornamental, frsits early and continues until frost, color a bright scarlet when full grown.

Long Red Cayenne-- Beautiful and productive, four inches long, bright red, slim, pointed pods, flesh thick and pungent.

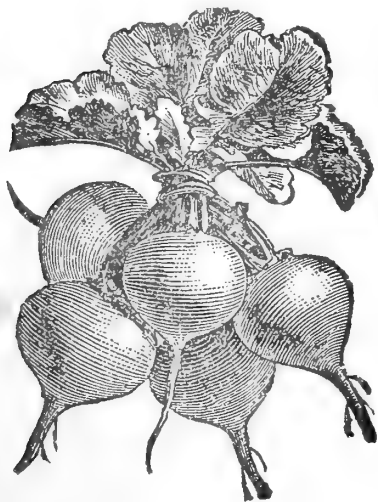

Parsley.

1 ounce will sow 150 feet of drill.

Champion Moss Curled-- A compact growing plant, very ornamental, leaves a bright green color, finely crimped and beautiful curled. Pkt. 1 ct., oz. 15 cts

Extra Double Curled-- A beautiful curled dwarf variety, esteemed for garnishing. Pkt. 1 ct., oz. 15 cts.

 If you have no use for this catalogue please hand to a friend.

Radish

All radishes are post-paid 2 c per pkt., or 5 c. per oz.

Early Scarlet Turnip-- A

small, round red turnip-shaped Radish with a small top,

and of a very quick growth. A very early variety, deserving general cultivation.

New Rosy Gem-- One of the handsome-t turnip radishes and a great favorite in many large markets for early planting out doors. Roots slightly flattened on the under side, color very dark scarlet with a white tip; flesh white and of the best quality.

Early Scarlet Olive Shaped-- In the form of an olive, terminating in very slim tap root. Skin scarlet; neck small; flesh rose colored; tender and excellent, early.

Improved French Breakfast-- The favorite in Paris markets. A medium sized radish, olive shaped, small top, of quick growth, very crisp and tender of a beautiful scarlet color, except near the tip, which is pure white.

Early Long Brightest Scarlet-- An improvement in earliness and color over other varieties. Roots ready for use in about twenty-five days when planted out doors. It has a small top

Early White Turnip-- A quick growing variety, pure white, fine for early use

Chartier or Long Rose In color the greater length of the root is scarlet and pink, while the point and bottom portions are white.

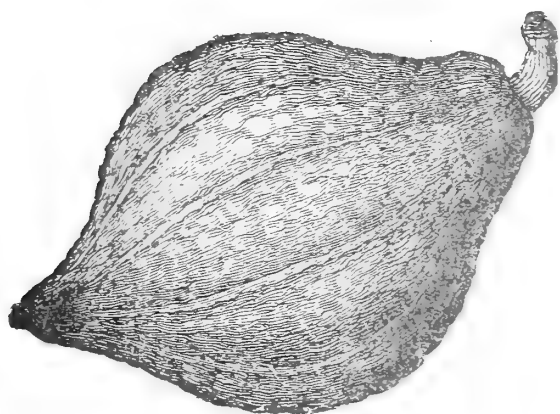

Long Black Spanish Winter-- Like the above, but roots are longer and perhaps milder in flavor.

California Mammoth White Winter-- It is really a Chinese radish, grown by the Chinese in California; eight to twelve inches long, and from two to three inches in diameter; white, solid and good flavor.

Sunflower

Mammoth Russian-- Sunflower seed is the best egg producing food known. If planted in low ground and around drains is a preventive to malarial fever. Plant on any piece of ground in May. Plant in hills three ft. apart. Pkt. 5 cts. $\frac{1}{4}$ lb. 10 cts., lb. 25 cts.

Squash.

(1 oz. early varieties for 50 hills.)

(2 oz late varieties for 50 hills.)

Early White Bush-- The Cympling of the Southern States, maturing fruit for the table fifty days from germination Pkt 1 ct.; oz. 6 cts:

Giant Summer Crookneck-- This squash is twice the size of the ordinary sort, far more warty, and several days earlier, which makes it a desirable squash Pkt. 1 ct., oz. 6 cts.

Yellow Bush Scalloped-- A handsome yellow scalloped bush variety, early. Pkt 1 ct oz. 5 cts.

Pineapple-- Fine for summer and fall flesh is thick, creamy white, and of a rich flavor, and gives the best of satisfaction. Pkt. 1 ct oz. 6 cts.

Perfect Gem-- This variety is equally desirable either as a summer or winter squash. Wonderfully productive, flesh fine grained and cooks dry Pkt. 1 ct oz. 6 cts.

Fordhook-- Bright yellow skin, flesh of a straw color, dry and sweet, and the best in quality of all winter squashes, maturing early and is everywhere a cropper, being earlier in ripening than any other squash Pkt. 1 ct oz. 6 cts,

Improved Hubbard-- Best squash known flesh bright orange yellow, fine grained very dry. sweet and of a very rich flavor, boils or bakes exceedingly dry and is esteemed by many to be as good baked as the baked potato Pkt 2c oz 6c

Tell your friends about me

Squash continued

Chilian Giant- The largest of all squashes, rather flat at both ends. single speciums have grown to the enormous weight of 300 pounds, Outer color is a rich orange yellow, flesh very thick and of a rich yellow color Pkt 1c oz 6c

Faxon-- This new South American variety is very popular, its valuable points are earliness, long keeping and high quality. Pkt. 1 ct oz. 6 cts.

Marblehead-- Resembles the Hubbard more than any other sort. The very best keeper of all. Fresh is a lighter shade than the Hubbard, fine grained sweet and delicate flavor. Pkt 1c, oz 6c

SOJA BEAN or COFFEE BERRY.

This variety has been sold largely under the name of German Coffee Berry at extravagantly high prices, The berries ripen in about four months from time of planting and produce a crop of 20 or 30 bushels to the acre and are as easily grown as beans. When roasted and ground it closely resembles coffee and tastes quite similar. Its great value to the farmer lays in the fact that when ground it makes one of the most valuable crops to feed stock, it adds to the milk production. Sow one half bushel to the acre, in drills three ft. apart and one foot between the plant. Pkt. 5 cts.. $\frac{1}{4}$ lb. 15 cts., pk. \$1.00

TOBACCO.

Connecticut Seed Leaf-- Best adapted to the climate of the Middle and Northern States, as it is more hardy and endures the cold better than any other variety Pkt 1 ct., oz. 20 cts.

SAGE

A hardy perennial herb, used for flavoring and dressing, Sow early in the spring, cut the leaves just as the plant is coming into bloom and dry quickly in the shade. Pkc. 1 ct.

TURNIPS.

(1 oz to 150 feet of drill)

Purple Top Strap Leaf- The favorite variety for summer and autumn use, turnips flat, clear white, with purple top. I have a fine strain. Pkt. 1 ct, oz. 5c. lb 45 cts.

White Flat Dutch- Very early, pure white and of the best quality. Pkt. 1c, oz 5c. lb 45 cts.

Extra Early Milan- The bulbs are pure white with purple top, round, flattened and solid, flesh pure white, sweet and crisp. Pkt. 1 ct., oz 6 cts, lb 50 cts.

Yellow Globe- The best general variety for general crop. It keeps well until late in the spring and is excellent for use. Pkt. 1 ct, oz 5 cts, lb 60 cts.

RUTA BAGAS

New Monarch- This new Ruta Baga is claimed to yield more and larger roots to the acre than any other sort, producing large, oval-shaped roots, with small necks, skin dark purple above ground, yellow below, fine quality and rich flavor. Pkt. 1 ct oz 5 cts.

White Russian Swede - This variety is an excellent keeper and a very desirable sort for either table or stock. It grows to a very large size, flesh white, solid, of fine texture, sweet and rich. Pkt. 1 ct., oz 5 cts. lb 45 cts.

Spinach.

(1 ounce will sow 100 feet of drill)

The main crop is sown in September for spring use. For summer sow in April in drills 12 in apart.

Bloomsdale- Leaves wrinkled, it is very hardy and prolific, Pkt 1c oz 10 cts.

Round Leaf- One of the best for family or market garden. Pkt. 1c. oz 10 cts.

Long-Standing- Lasts from three to four weeks longer than others. Pkt. 1 ct.

TOMATO.

(ounce of seed will produce 2000 plants)

Optimus- The best tomato as far as quality is concerned. Vine medium size, but vigorous, healthy and productive. Although not called a first early sort, many of my customers report that they have obtained ripe fruit from this as early as from any variety. fruit oval, medium size. very smooth and exceedingly bright, crimson scarlet color. Pkt. 1 ct. oz, 12 cts.

Paragon- A fine variety, quite early, extremely productive. Tomatoes are of good size, color red, Pkt. 1 ct. oz. 14c.

Livingston's Beauty- Tomatoes round smooth, crimson color, tinged with purple, solid & fine. Pkt. 1 ct oz 14 cts.

Burt's Snowball- Grand new variety pearly white in color and of excellent flavor, great yielder, unsurpassed for table, pickling and canning purposes. Pkt. 2 cts., oz. 20 cts.

Dwarf Champion- The foliage is very marked, of a dark-green color and leaves thick and different from other fruit smooth, medium in size, and similar in color to Acme. Pkt. 2 cts. oz. 15c

Acme- Rich glossy crimson, tinged with purple, perfectly smooth, and one of the earliest. Pkt. 1 ct., oz. 14 cts.

Ponderosa- This Tomato is claimed to be the largest that has been yet introduced. It is a bright red color, rather flat, flavor and solidity unequalled. Pkt. 2 cts., oz. 25 cts.

Mikado- Very large, fairly smooth, of solid and fine quality, color purplish red, foliage distinct. Pkt. 1 ct, oz 12c.

Golden Prize- New golden yellow sort. Flesh is thick and of extra good quality, grows in clusters and produces enormous crops. No matter if you are prejudiced against a yellow sort this one will please you. Pkt. 1 ct, oz 15 cts

Try my Seed they please.

Please send for my illustrated price list of poultry supplies. Its free.

Novelties And Specialties.

On this page, I offer a few selected Novelties of rare merit. All have been carefully tested & I think worthy of a trial. I can recommend them to your consideration.

New Cucumber "Green Beauty"

Extra early, exceedingly prolific. It is inclined to taper off at the stem-end, and is generally a little pointed at the other end also. This is the most desirable shape for pickles. The cucumbers are straight, long, even and slim, and of a very dark green color. This is sure to be a standard sort and I know it is one of the best grown. Pkt. 5 cts., oz. 15 cts.

Pumpkin "Big Boy"

Will surpass any variety in size; an extra selection. Wonderfully grand and colossal variety, it grows to mammoth size. It is one of the best pie and table varieties grown. Pkt. 5 cts. oz. 10 cts.

 **Special: One pkt. each of the seven varieties of vegetables for 40 cts.**

Giant Pansies. "Pan-American Mixed"

Years of scientific culture and selection in raising pansies have produced a race of luxuriant, robust growing plants. The flowers are correspondingly improved in size, substance, form and color. I have such a complete list of Giant flowering Pansies, that all should try these beauties. The mixture contains the leading colors, and is without doubt the finest mixture ever offered. Large pkt. 10 cts.

Asters "Pan-American Mixture"

This mixture contains the finest colors of the following kinds: German Quilled, Victoria, Comet, Branching, Chrysanthemum, Jubilee, Ostrich Plume, etc. This will give you a grand display of all of the leading varieties grown. I know my customers will be more than pleased with this mixture. Large pkt. 10 cts.

Nasturtiums "Empire Mixture"

These Nasturtiums possess all the self-colored flowers found, while others are blotched, splashed, striped or bordered. The colors range from crimson, lilac, yellow, black, pearl scarlet and all of the variegated kinds. This is another one of my selected mixtures and made to please my friends. I ask you to try these Nasturtiums and see if you don't have the finest you ever had. $\frac{1}{2}$ oz. pkt. 10 cts.

 **Special: One pkt. each of Pansies, Asters, Nasturtiums for 25 cts.**

Beet "New Pride"

In the New Pride I have more good qualities than were ever before combined in one Beet. It is almost round, leaves small and set close to the center; the edible bulb is of good size tap root small. The color is very dark rich crimson. It is extremely early, coming in with the Extra Early Egyptian, the flesh is delicate, rich and sugary. I consider this a first class Beet and every person should try a pkt of it. Pkt. 5 cts., oz. 10 cts.

Cabbage "First"

In this new Cabbage I have a variety of exceptional merit. Its general character is that of the Flat Dutch, but is earlier and remarkable for its solidity and freedom from superfluous or waste leaves. Heads from 6 to 8 in. in diameter, & about 7 in. from the ground. It is of fine texture and will produce heads before any other varieties. I consider this one of the best grown. Pkt. 10 cts. Oz. 50 cts.

New Lettuce 'O. K.'

A very valuable Lettuce. The general color is clear bright green, is never bronzed by outdoor growth under any climate conditions. It is medium in size, the entire plant measuring about 10 in. in diameter. The leaves are thin, slightly crumpled, very crisp and entirely without veins. A extra fine Lettuce for general culture. Pkt. 5 cts., oz. 20 cts.

Muskmelon "Dandy"

The best melon for the Market Gardener, very prolific, vigorous grower, unsurpassed in flavor, attractive in appearance, medium in size and ripens early. The flesh is a deep salmon color, thick, firm and solid, and possessing a aromatic flavor, an excellent shipper. As a gardeners melon it has no equal. Try it.

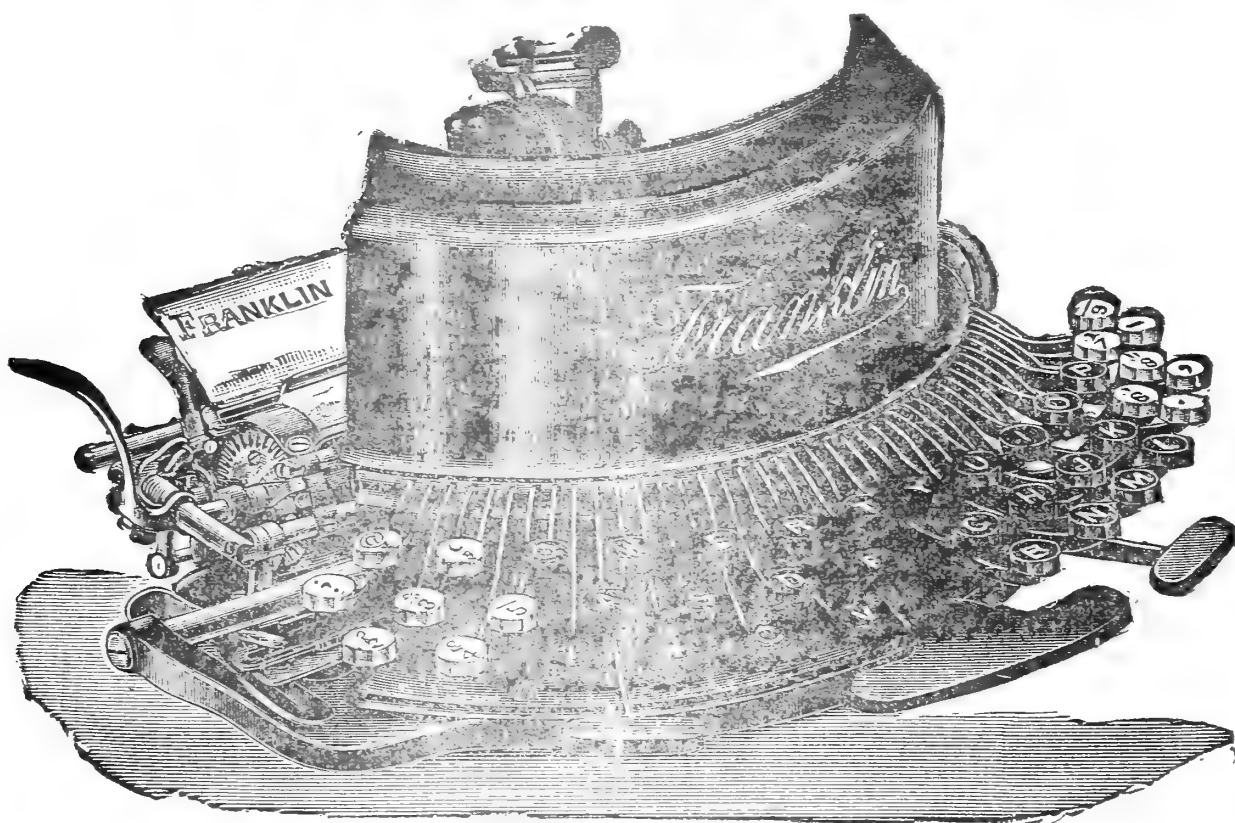

Pkt. 10 cts., oz. 20 cts.

Tomato "The Beauty"

In this new Tomato I have a variety of exceptional merit, coming into use very early. It is perfectly smooth and symmetrical in shape and very large. The plants are strong and vigorous, bearing an abundance of large smooth fruit of crimson color, flesh thick, solid and firm. An excellent shipper.

Pkt. 10 cts., oz. 25 cts.

The FRANKLIN Standard TYPEWRITER

STANDS FOR

Visible Writing, Simple Mechanism, Speed,

Excellent Manifoldeng, Permanent True Alignment,

Durability and a fair Price.

How to buy a 
FRANKLIN TYPEWRITER

The price of the FRANKLIN is \$75.00

This is \$25.00 less than the fixed price of the typewriter trust, and yet the FRANKLIN is the equal of any \$100.00 machine built,

Are you undecided? Rent a FRANKLIN for a few months at \$4.00 per. month. Then if you are satisfied, buy the machine. Whatever is paid in rent will be allowed toward the purchase.

Does an inferior machine which you own stand in your way? You can turn it in as part payment towards a FRANKLIN and a fair allowance will be made.

See next page.

FRANKLIN TYPEWRITER.

LOCKED ALIGNMENT,

Alignment is one thing, perfect another, and permanent perfect alignment still another. The FRANKLIN keeps for all time, because its alignment is locked as surely as a barred door.

DURABLE,

Has been partially laid bare in the simplicity of mechanism. The FRANKLIN is made of the best material, is stocky and firm in construction, and is admirably put together.

HIGH SPEED,

High Speed is one of the foremost essentials. The FRANKLIN has a very satisfactory, positive, easy action and when limbered up has as nice a touch as any machine on the market.

VISIBLE WRITING,

Visible Writing is the broadest endowment of common sense, convenience and time saving, the inventor ever gave a writing machine. The constant lifting of the carriage is entirely done away with, time and effort are both saved.

The FRANKLIN is the pioneer visible writer and the best one.

NOT IN THE TRUST \$75.00 ON EASY PAYMENTS

One mechanic who has made a fortune out of his inventions said: "The old style machines were built upside down; had the first typewriters embodied visible writing any other construction would have been absurd." Think it over. Which will you have, a big old fashioned machine at Trust Prices, or a Modern Visible Writer at a reasonable price. Who do you wish to help, the Trusts or their Competitors? Our prices are one third under others, Typewriters rented at \$4.00 per month. We have new and second hand of different kinds.

If your purse is thin you can obtain easy terms of payment.

Success With Flowers.

THIS is the only magazine entirely devoted to Floriculture from an amateur standpoint. It gives you plain and practical information about the care of your plants and flowers, in the window or in the garden. It answers all your questions and solves all your difficulties. You need it, no matter how many or how few plants you have. It is published monthly and has 32 pages, magazine size.

In order to introduce this handsome and popular magazine to a new circle of readers, we will send to each person sending us 50 cents for a years subscription, post-paid and correctly labeled, the following named collection of

8 Beautiful Plants Free!

Order as Premium No. 31. No changes or substitutions can be made.

Rose, Clotilde Soupert. Known everywhere. Strong, dwarf grower, producing cluster after cluster of the finest formed flowers imaginable; full and double, very sweet. Color, ivory white; center, silvery pink. Hardy.

Boston Fern. The best and most popular decorative plant now known. Forms an immense number of graceful, drooping fronds, varying in length from 2 to 5 feet, which arch over in every direction.

Cyperus Alternatifolia. Umbrella Plant.—A splendid house plant, easily grown in a dish or vase, half filled with rich soil, then filled with water.

Asparagus Tenuissimus. We cannot too highly praise this beautiful new plant. Its fine filmy foliage is indispensable in bouquets, and will keep for several days after being cut, without wilting or changing color.

Baby Primrose. One of the daintiest new plants that has been introduced in years. Bears on long stems flowers of del-

icate rose color. Blooms remain fresh for two weeks after cutting. Blooms continuously. Will grow in almost any situation.

Begonia, Dewdrop. Is always in bloom; will stand the strong sun and is one of the finest plants ever introduced for house decoration. Will bloom profusely all through the winter. The best flowering Begonia ever obtained.

Emerald Feather. Asparagus Sprengeri. A most desirable new species for decorative purposes; the fronds are frequently four feet long, retaining their freshness after being cut for weeks. An excellent house plant, as it withstands dry atmosphere and will succeed anywhere.

Geranium Bruant. The giant among Geraniums. The plant abounds in vigor; foliage strong, striking and of perfect habit. Color of the flower is a brilliant vermilion-red of most pleasing shade. The flowers are absolutely perfect in shape, color and makeup.

REMEMBER, that while we secure these plants at a low price, because of the enormous quantities we buy, they are not in any sense cheap stock, but are all strong specimens, sure to grow and sure to give immense satisfaction this winter.

GENTLEMEN:

Shirley= Flowers large, graceful and elegant; generally single or semi-double, blotched and streaked. All colors in grand mixture. Pkt. 1 ct.

Portulaca

For brilliancy, delicacy, diversity, and beauty of color the Portulaca surpasses all out door plants. For small beds, edgings, rockwork, it has no equal.

Double mixed= Pkt. 3 cts.

Single mixed= Pkt. 2 cts.

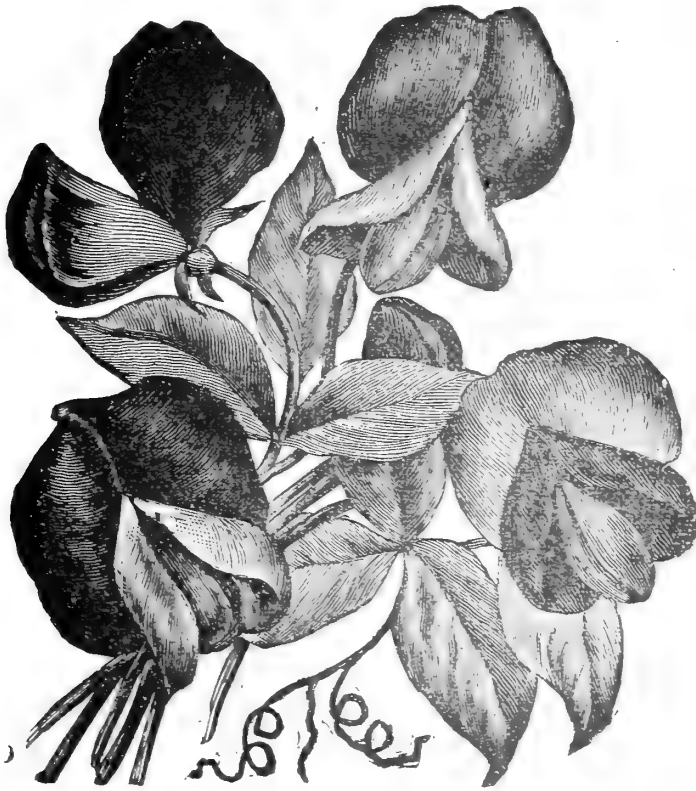

Digitalis

Stately plants with long spikes or thimble shaped flowers. Mixed colors Pkt 1c.

Forget-me-not.

Everybody's favorite. Pretty little cluster of delicate flowers. Mixed Pkt. 3 cts.

 I ask you to give me at least a small trial order and I will try my best to please you.

Sweet Peas

Sweet Peas are among the most beautiful of all our hardy annuals. The plants are suited with all soils. Seeds should be sown 4 in. deep in a stiff soil; and as early in the spring as possible. The varieties offered embrace all of the best kinds. My Seed is the best, All Sweet Peas are 1 ct. per. pkt., 5 cts. per. oz.

I offer the following varieties.

Capt of the Blues.....	Purplish
Venus.....	Salmon buff
Primrose.....	Pale Yellow
Stanley.....	Dark Maroon
Butterfly.....	Lavender
Mrs. Eckford.....	Creamy white
Blanch. Ferry.....	Pink & white

BEST MIXED- This contains the best colors, largest flowers, and is the most perfect mixture to be had. It contains all the best introductions and I claim there are no better colors offered. Pkt. 1 ct. oz. 5 cts. lb. 40 cts.

Emily Henderson.....	White
Emily Eckford.....	Bluish mauve
Apple Blossom	Pink
Grace May.....	White
Cardinal.....	Bright Red
Cupids Dwarf	All colors

Dianthus

The China or Japan Pinks are deservedly very popular, as few flowers can equal them in beauty and profusion of bloom. They bloom continually all summer and fall, until overtaken by frost. They live over winter and bloom the second season. Single and Double Mixed- Pkt. 1 ct.

Hollyhock.

The Hollyhock now ranks with the Aster, Dahlia etc; being exceedingly rich and varied in color and as double as a rose. Plants easily grown from seed. Double & Single mixed- Pkt. 1 ct.

Mammoth Fringed Allegheny- Flowers single and double, transparent, fringed, Chrysanthemum shaped, seldom less than 5 inches and often 7 inches across very finest mixed. Pkt. 3 cts.

Gourds.

Rapid growing ornamental climbers with odd shaped and often highly colored fruit.

Best mixed-Combining the largest mixture of the most curious, interesting and useful of the entire Gourd family. Pkt. 1c.

Datura.

Large, strong growing plants, flowers white, sometimes tinted with blue. Roots can be preserved in the cellar like Dahlias. Three feet in height. Pkt. 1 ct.

Lobelia.

A very valuable class of dwarf growing plants, delicate drooping habit and profusion of charming little blue and white flowers. Pkt. 1 ct.

Marigold.

Wherever a rich display of bloom is desired, the Marigold is almost indispensable. The African varieties are tall, growing usually two feet or more, while the French are more dwarf. Hardy annuals, in bloom until frosts comes.

Legion of Honor—A beautiful single dwarf bushy variety, bearing rich, golden yellow flowers with garnet blotches in the center of each petal; about one foot high. Pkt. 1c.

El Dorado—Flowers three to four inches in diameter, imbricated and extremely double. Pkt. 1c.

African, Double Mixed—Very early; profuse bloomers of compact habit. Pkt. 1c.

French, Double Mixed—A class of showy and extremely effective plants; fine double flowers of rich and beautiful color; very well adapted for large beds and bordering. Pkt. 1c.

Pink.

Marguerite Carnations—These perpetual flowering Carnations produce a large proportion of double flowers from seed. They bloom in about four months from the time of sowing. The flowers are of magnificent colors, ranging through many shades of pink, red, white and variegated. Mixed colors. Per pkt 3c.

Petunias.

Petunias are particularly useful for beds and masses, where their bright, rich and varied colorings produce a brilliant effect on lawns and gardens. Best mixed pkt. 2c.

Bachelor Button.

Also known as "Ragged Sailor," "Corn Flower" and "Blue Bottle." It is a great beauty, the national flower of Germany and a great favorite in the old country. Beautifully fringed and serrated. Hardy annual 2 to 3 feet high. Pkt. 1c.

Mignonette.

No garden is complete without its plot of Mignonette; no nosegay finished without its sprig of this sweet-smelling flower. I pride myself on my choice strains of this favorite flower, and believe no finer seed can be procured anywhere. Sow early in the ground for summer bloom.

New Giant Red Flowered—This wonderful Mignonette grows 12 to 16 inches in height, in pyramidal form; its enormous flower spikes are of the largest size, the individual blossoms of an intense red color. Pkt. 2c.

New Golden Machet—This new Mignonette possesses all the excellent qualities of the red-flowering Machet, while the long massive spikes are crowded with golden yellow blossoms. This is a very valuable and distinct novelty. Pkt. 2c.

Grand Mixture—Pkt. 1c.

Pansy.

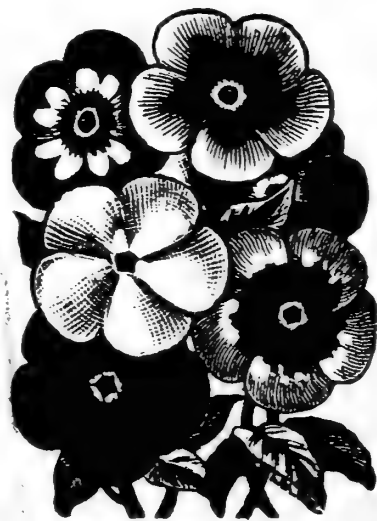

The lovely flowers are favorites with all, not only for the brilliancy and variety of their colors, but for the durability of their bloom.

Grand Mixed—This mixture is specially prepared for the most critical Pansy lover and florst, who require the greatest variety of colors, as well as flowers of the largest size. Pkt. 2c.

Phlox.

Drummondii—

Superb plants, prized for the profusion of their richly colored flowers of many hues, their long duration in bloom and the grand effect they produce in clumps

or masses. Hardy annual.

Fine Mixed. Per pkt. 2c.

Flowering Bulbs

Some of the most beautiful and fragrant of all the flowers grown belong to this class and when potted in the house, they come into bloom just at the time when flowers are most wanted. My winter and spring bulbs are ready Sept. 15, summer bulbs are ready Jan. 10, and I always have a good supply send your order at any time and bulbs will be sent in their season. All bulbs are large size and sound.

Winter and Early Spring Bulbs.

Hyacinths- Either double or single mixed. 7c. each 75c. doz.

Tulips- Double or single mixed. Each 5c., doz, 30c.

Narcissus or Daffodils- Mixed varieties Each 5c., doz. 50c.

Crocus- Mixed colors. Doz. 10c.

Snowdrops- Single fine bulbs, 20c. doz. double 30c. doz.

Summer flowering Bulbs Dahlias

One of the grandest autumn flowers we have. Plant early in May, in deep, rich soil, about 3 ft. apart. Set plants deep & tie to stakes before they bloom. Double mixed 15 cts. each, 4 for 50 cts.

Single mixed- 10 cts. each, 6 for 50 cts.

Oxalis

Summer flowering. Valuable for edging walks, flower beds, etc. Bulbs planted 3 in. apart form rounded rows of delicate foliage, about 1 ft. high, which produces flowers in endless succession. Plant in May, one in. deep. Take up bulbs in fall and store in dry cellar.

All colors mixed 10 cts. doz 60 cts 100

Caladium or Elephants Ear

One of the most beautiful and striking of the Ornamental Foliage Plants for planting out on the lawn. When of full grown size it stands about 5 ft high, with immense leaves, often measuring 4 ft. in length by 2½ in breadth. Plant out in May in rich soil and give an abundance of water in dry weather.

Large roots 15 cts. each.

Cannas

Very handsome tropical looking plants are unrivaled for fine effect on the lawn. Plant in deep rich soil, give plenty of water in dry weather.

Mixed varieties- Dwarf, large flowering. Each 10 cts., 3 for 25 cts.

Gladioli.

I cannot too highly recommend my mixed gladioli. They embrace a magnificent variety of beautiful colors. I trust that many of my friends will avail themselves of these low prices, to plant largely. Set the bulbs from six to nine inches apart and about four inches deep. Plant in Apr.

Extra fine mixed- Embracing a magnificent variety of colors, very choice; 3 for 10 cts., doz. 35 cts., 50 for \$ 1.25

German Iris

These bloom in May and June. Plant about 18 in. apart, height 2 feet; mixed colors; each 10 cts.; 3 for 25 cts.

Lily of the Valley.

Clumps- For immediate effect these are much to be preferred to the single pips. My clumps are large and heavy and blossoms may be expected the first season. Each 15 cts., 2 for 25 cts.

Tuberose

The Tuberose is a large, beautiful, pure white, wax like, sweet scented double flower. Plant out in May 12 in. apart.

Dwarf pearl Large double flowers, each 7 cts. 3 for 15 cts., doz. 40 cts.

William D. Burt,

STANDARD FARM SEEDS

I carry at all times a select variety of Farm Seed, Grasses etc., but as prices are subject to market fluctuations, I can not give quotations here. When you are ready to buy write me for prices, stating quantity wanted, and I will give you the lowest market price. My Farm Seed are all recleaned and the best money can produce. I send all Farm Seed by express or freight purchaser to pay charges. Bags are charged at cost, via: two bu. bags 15 cts. each, 1 bu. bags 10 cts. each.

RAPE

Dwarf Essex- Grown especially for stock & for green manure, stock fatten very quickly upon this plant. Prepare the ground as for turnips, and sow about three pounds to the acre. One acre of Rape will pasture 36 sheep for two months. Every farmer should try this forage plant. Lb postpaid 20 cts. 10 lbs. at purchasers expense \$1.00

OATS

The Lincoln- The Lincoln Oats are very productive, they will yield more than any other oat grown, they are very early, rust-proof, they stand up well, they have a thin hull, heavy meat and soft nib. Bu \$1.10 pk 40 cts.

White Russian-- Grain plump and heavy heads large, straw stout, stools freely. Bu 90 cts 10 bu at 95 cts.

Bromus Inermis

Another very valuable grass for dry lands it endures extremes in temperature and resists drouth where Alfalfa fails. It grows on any soil, it is equally good for cutting green, pasturing or cutting for hay, and is equal to timothy for stock, and makes a fine pasture. Use 25 lbs to the acre. Lb postpaid 35 cts 25 lbs \$3.75

Barley

Mandscheuri- Is an early six-rowed variety, very strong strawed and stools well, bearing large well filled heads of plump berried grain, adapted to all soils. Bu \$1.25.

Corn

8 qts. for 1 acre in hills. 3 bu for 1 acre broadcast.

Red Cob Ensilage--- A southern type of large white corn with a deep red cob. Adapted to all sections, and one of the best ensilage corn grown. Price per pk. 40 cts. Bu. \$1.00

Southern Sweet Corn-- There is nothing better for green feed, It has the great merit of being so sweet that cattle will eat every part of the and stalks. Per. bu. \$1.50, pk. 50 cts.

Leaming-- A yellow dent variety- Stalks medium height, very stout and full of leaves. Ears long and large set low down small red cob, grain very deep, of a rich golden color. This is used largely for ensilage and fodder. Bu \$1.00

White Cap Yellow Dent-- This corn combines more solid merit than any other corn grown, suitable for all climates and soils, and yet grows large ears and matures early, ears from seven to ten inches long, and well filled. This is the best corn grown. Bu \$1.25 pk 40c.

MILLET

Golden-- Medium early, the yield in hay or seed is greater than in any other grass, it grows from four to six feet high, the spikes very numerous, seeds golden yellow. Bu \$1.25 pk. 35 cts.

BUCKWHEAT

New Japanese-- The kernel of this new buckwheat is twice the size of the common kind; the straw is stouter and heavier; it branches more and does not need planting thickly. I consider it the best. Bu. \$1.25 pk. 40 cts.

Grass Seed.

I always carry a full line of Grass Seed in stock, but as the market changes I can not quote prices here. When you are ready to buy write me your wants and I will quote you the lowest market prices.

Alfalfa-- A permant clover of great value on all soils which contains lime in any form. Alfalfa should be cut every time it comes into bloom, for if allowed to run to seed it will shorten the life of the plant 18 lbs. will sow an acre.

Alsike-- Equal in nutritive value to the Red Clover, and excellant for land that is clover-sick.

Red Clover-- Medium--This is the standard and most important of all Clover My seed is known for its purity, viality, hardiness, vigorous and healthy growth, and stooling qualities. My seed is clean and free from all adulterations. The best to be obtained.

Mammoth Red Clover-- Extra recleaned Nearly idential to Medium Clover except it grows much larger. Used largely for pasture of hogs, cattle, etc. It makes a heavy pasture.

Kentucky Blue Grass-- It is one of the best grasses for dry meadow growth. The hay crop is of excellant quality, and all stock relish it.

Meadow Fefcue-- Of great value in mixtures for permanent pasture.

Meadow Foxtail-- One of the best grasses for permanent pasture. It is the earliest grass, and of rapid growth.

Orchard Grass-- One of the most valuable grasses, and should be one of the main varieties in mixture either for hay or pasture.

Red Top-- One of the best grasses for sheep pasture.

Timothy-- I offer a particulary "Choice" sample, free from weed seeds. Quantities of Timothy Seed are on the market which are so foul with noxious weeds, that there is no reason for planting such seed when I offer only the best.

Cow Peas.

A highly valuable fodder and fertilizer crop. Cow Peas can be grown as a second crop after wheat in the north. The pods may be harvested for the grain and the plants plowed under to fertilize the soil.

Whippoowill-- The favoriate early variety and best for the north. Bu. \$2.25

Field Peas.

Canada Field--Valuable for cattle-feeding and when sown with oats makes fine hog-feed. Bu. \$1.15

Black-eyed Marrowfat-- An old time favoriate; large handsome pods, enormous cropper. Bu. \$2.00 pk. 60 cts.

Lawn Grass

My choice mixture makes a choice lawn I offer only the best possible mixture for permanent lawns, resting the severe drouths better than any other. For best results sow in the spring. 1 lb. will sow 800 square ft. of ground. Postpaid per. lb. 35 cts., 3 lbs. for \$1.00

Corn

Pride of the North-- No variety of Corn has been more extensively grown in the Western States than this. It is early, with a fairly large ear and small cob, closely set with deep kernels; color bright yellow. It will shell 60 to 70 lbs. per bu. Ears 14 to 16 rows, often placed irregularly on the small, red cob. Bu. \$1.25

Iowa Gold Mine-- A handsome early Corn, ripening a few days after Pride of the North; ears are of good size; very even and uniform in shape, cob small, with very deep grains of a bright golden color, which dry out quickly. This is without doubt the best of the medium early Corn for quality and cropping powers. Bu. \$1.25

Get my prices on Farm Seed, they are recleaned and of high germinating power.

"The Farmer's Friends"

Collection of Field Seed

The Irish Victor Oats

When you are trying to decide what variety of oats to get, choose IRISH VICTOR and you will make no mistake. It originated in Ireland, being brought to this country in 1897. It is a very large oat, plump and heavy, pure white in color; not affected by rust or smut, and an immense yielder, a stiff straw and never known to rust.

They have yielded 125 bu. per acre

My farmer friend, I advise you to try these oats. Price, bushel (32 lbs.) 75c; $2\frac{1}{2}$ bushel or over, 70c per bu. Grain bags extra at cost.

The Iowa Gold Mine Corn

A handsome early corn, ripening early, ears large, extra good size, uniform in shape, cob small, with deep grains of deep golden color, which dry out quickly. This is one of the best corn grown. Price, bu. \$1.25. Bags extra.

Japanese Millet

This Millet is entirely distinct from any other, and is especially valuable for the northern states. It yields an enormous crop of forage, which is greatly relished by stock; when cured it makes excellent hay. Plant 12 lbs per acre. Price, 10c lb.

Special

I will ship $2\frac{1}{2}$ bushels of the Victor Oats, 1 bushel of the Iowa Gold Mine Corn, and 12 pounds (enough for one acre) of Japanese Millet for

\$3.75

 Don't fail to write me for prices on your Clover and Timothy Seed or any farm seeds you may be in need of. I can save you money.

Incubators and Brooders

PETALUMA INCUBATORS

Petaluma Incubator, Model 60

Construction—The egg chambers are made of thoroughly seasoned California red-wood, the best material in the world out of which to construct incubators, tongued and grooved, padded thickly with wool, and lined throughout with heavy jute board and asbestos sheeting, thus making the walls thick and a double-cased machine with the spaces between the cases filled with wool. Copper is used in all parts with which the heat of the lamp comes in contact—whereas in most machines galvanized iron and tin are used, so that they will never rust or become filled with pinholes through which gases from the lamp are admitted to the egg-chamber, which is often the case with other machines.

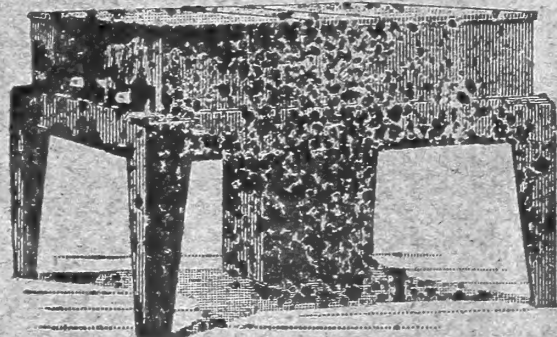

Price List of Petaluma Incubators

Model 59. Capacity 54 eggs.....\$10.00	Model 61. Capacity 216 eggs.....\$30.00
Model 60. Capacity 126 eggs.....\$20.00	Model 62. Capacity 324 eggs.....\$40.00

PETALUMA INDOOR BROODERS

Every objectional feature that we have ever heard of in a hot-air brooder has been avoided and several new features have been added. This brooder has a combination of top and bottom heat. It is economical in the consumption of oil, best ventilated, the easiest cleaned, most convenient to handle and will raise the largest per cent. of strong, vigorous chicks, and is by far the cheapest.

— If interested in one of the best Indoor Brooders on the market send for a catalog giving a description of this brooder. A special catalog giving a description and lots of testimonials of the Incubators sent free on request.
